The 2-position TV recline is achievable on all Pride® Power Lift Recliners. This is a comfortable position for performing many relaxing activities including reading, watching TV, working on your tablet or for conversation with family and friends.

The 3-position full recline is available on most Pride® Power Lift Recliner models and puts you in a position ideal for napping or relaxing.

The true infinite-position recline is perfect for taking a nap. Infinite-position Pride Power Lift Recliners enable the backrest and footrest to move independently from one another so that a variety of positions can be reached.

The Trendelenburg position, available on the LC-525i, LC-580i and 515iL, elevates one's feet higher than his or her head for increased comfort and relaxation.

The zero gravity position, which can be reached on infinite-position Pride® Power Lift Recliner models, positions one's thighs and lower legs higher than his or her torso.

Can achieve infinite (two, three, infinite) and lay flat positions.
