# MaxiComfort® SERIES

## What's so special about MaxiComfort?

MaxiComfort® chairs are the most advanced lift recliners anywhere in the world! MaxiComfort is the only patented recline technology that can glide you smoothly into an unlimited number of comfort positions not found on standard lift chairs. This exclusive line of lift recliners is controlled by an easy to use hand control called AutoDrive™, which can memorize your favorite settings. Choose from optimal comfort positions that promote health, wellness, and relaxation for both your body and your mind.

*Consult with your physician regarding using the Trendelenburg position. The Trendelenburg position is not available on the PR505-JPT.*

## GOLDEN AutoDrive™ 3.0

CUSTOMIZED COMFORT

AutoDrive™ has taken the guesswork out of getting in to or out of your favorite positions. AutoDrive assists in finding favorite comfort positions and it can memorize up to four positions.

### Find **Total Control, Position Control** or **Comfort Control**.

You can Lift, Recline, Watch TV, Sleep, or enjoy the wellness benefits of the Zero-gravity and Trendelenburg positions, all at the touch of the AutoDrive buttons.
